BlueSky Mast REACH Statement

Under the definition of the REACH regulations EC1907/2006, BlueSky Mast is a producer of “articles”. REACH requires article suppliers to inform recipients if an article contains a Substance of Very High Concern (SVHC) in excess of 0.1% by weight. The compliance status of the products was confirmed based on the latest 223 substances as updated by ECHA on Jan 17, 2022. Please refer to the following ECHA list for the most current candidate list of substances: <http://echa.europa.eu/candidate-list-table>.

Additional information on the European Union’s REACH regulation can be found here: <https://echa.europa.eu/regulations/reach/understanding-reach>.

Based on the material content certifications provided by BlueSky Mast suppliers, none of these substances are present in the materials used in BlueSky Mast products, including packing and shipping materials. Therefore, BlueSky Mast products supplied do not contain any of these SVHC in excess of 0.1% by weight. BlueSky Mast will continue to comply with REACH requirements and notify customers of any change in article content.
